OFFICIAL PAPER OF COUNTY.

LOCAL DEPARTMENT.

NEWSPAPER LAWS.

Any person taking a newspaper regularly from the publisher, whether directed to his name or another's, is responsible for the payment. If a person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until the payment is made, and collect the whole amount, whether the paper is taken from the office or not.

The courts have decided that refusing to take newspapers and periodicals from the postoffice, or removing and leaving them uncollected, is prima facie evidence of intentional fraud.

Papers may be sent to subscribers until an express order to discontinue is received, and all arrears are paid as required by law. Merely returning a number of the paper is not sufficient.

TO THE PUBLIC.

For our own protection we hereby agree to furnish no proof of publication for any legal advertisement of any description, published by us, from and after the date hereof, until the costs of such advertising is paid.

W. T. BOWLING, Publisher, Humboldt Union.

J. B. STICKLE, Publisher, The Iowa Register.

IS YOUR LIFE WORTH 10 CENTS?

Sickness prevails everywhere, and everybody complains of some disease during their life. When sick, the object is to get well; now we say plainly that no person in this world that is suffering with Dyspepsia, Liver Complaint, Constipation, Sick Headache, Sour Stomach, Heartburn, Palpitation of the Heart, Depressed Spirits, Biliousness, &c., can take GREEN'S AUGUST FLOWER without getting relief and cure. If you doubt this, go to your Druggist John Francis Iola, Kansas, and get a sample bottle for 10 cents and try it. Regular size 75 cents. Two doses will relieve you. 51y.

—Old Mr. Bostwick died at the residence of his son, D. W. Bostwick, last Monday night in the seventy-sixth year of his age.

—No more attorney fees to be collected as costs in foreclosing mortgages and judgments on notes. So the Legislature declared.

—The Geneva Academy case is to be tried before Judge Bassett of the 6th Judicial District. He will come here to Iola for that purpose.

—We are expecting some announcements of candidates for city offices next week. There are over five hundred dollars in the city treasury.

—The organization of base ball clubs is in order. City papers predict that the contest for championship this year will be the most exciting ever known.

—One dollar a year for keeping a dog, and then you are responsible for any damage he may do to stock. Read the law on the fourth page of to-day's paper.

—If you have anything for exhibition at the Centennial bring it in to Bowls at once. Everything sent from this State must be at Topeka by the first of April.

—L. C. Munger having assumed control of the meat market on Madison avenue will furnish the best of meats at the lowest rates. He says he will not be underbid.

—We acknowledge the receipt from F. P. Baker of the Commonwealth of a copy of his pamphlet edition of the laws passed by the late Legislature—such as were published in that paper.

—The City Clerk reports that all outstanding orders have been paid, and that there is in the city treasury belonging to the different funds some five hundred dollars in cash. A good showing.

—The railroad land affected by the bill introduced into Congress by Judge Goodin is that known as the "indemnity strip." The railroad company have not offered this land for some three years past.

—The American Young Folks is the name of a monthly paper for boys and girls, published at Topeka by J. K. Hudson. It is worthy of patronage and is furnished to single subscribers for 50 cents a year.

—Dr. Strong and sons returned the first of the week from a trip along the southern tier of counties and in the Indian Territory, where they have been buying cattle. They brought with them some two hundred head.

—We had thought that the time had come when shot guns should be put away, but after reading the "dog law" passed by the late Legislature we have changed our minds. Persons are allowed to shoot all dogs found on their premises without their owners.

HELP IN GAINING KNOWLEDGE. In acquiring a knowledge of the English language and especially in learning the meaning of words, probably no other work, nor many other books altogether, can afford so much aid as Webster's Unabridged Dictionary, with its 3000 pictorial illustrations, its precise and full definitions, its careful discriminations of synonymous words, and its many valuable tables. It is, in itself, a whole library of the language. Let one family have a copy of this work, and use it faithfully and another be without it—the difference in the progress of the two families in getting knowledge, will be very great.

ABOVE THE FORKS.

March 15th, 1876.

MR. EDITOR:—I suppose but little is known by the outside world, of the doings of those people who reside above the forks of Deer Creek, and many imagine they are a sleepy, jogging set; but in that they are undoubtedly mistaken. As a neighborhood there are but few drowses to be found among the people, while active energetic industry abounds all around. The older people are gradually increasing in love of reading, while the younger portion are being filled with scholastic lore.

Last Monday was rather an exciting day up here, as the following items will disclose. One farmer started for Iola in an old ford and broke a wagon tongue; another stuck with a load of corn crossing a branch of the creek, and after vain efforts of self and neighbors to extricate the wagon and load, suspended operations till next day, as night was dropping her mantle around, and finally Mr. Merchant's fine cottage was discovered to be on fire, and bid fair to be consumed but for the assistance of a couple of young lady visitors and a young man who opportunely arrived just at the time, and the family. Loss, plastering down and removal of part of the furniture, and smoked ceiling. Cause of fire—a defective chimney.

I trust more of your welcome papers will be found scattered among the families ere long.

For the herd law has not many friends here.

DEATH OF DR. DRISCOLL.

We copy the following article on the death of Dr. Driscoll from the Sidney, (Ohio) Journal, thinking it may be of interest to those of our county who were formerly acquainted with the doctor:

Nature had endowed him with a high order of intellect. He cultivated his gifts and became a thorough scholar. His mind was a treasury of knowledge, the result of close and extensive reading. The following synopsis of the principal events of his life may prove interesting: He was born in London county, Va., April 16, 1829, and was left fatherless when two years old. He came to Ohio in 1846, and settled in Logan county. He finished his education at Northwood College, and adopted teaching as his profession. He came to Sidney in 1856, where he took charge of what was then known as the Mathematical Department in the Union School, in which branch of instruction he excelled. On July 7, 1858, he married Gloria Beaman, daughter of Dr. P. Beaman. Shortly after his marriage he went to Kenton, as Superintendent of the Union School in that place, where he remained for a year, after which he returned to his old position in Sidney. He remained here for some time. In the winter of 1860-61 he was attending lectures in Washington City. The opening of the war interrupted his studies in that city, and he spent the remainder of the winter in Philadelphia. He again returned to this county and located in Pemberton, and practiced medicine till 1862-63. He then attended lectures and graduated at the Ohio Medical College, Cincinnati. He joined the 136th Ohio Volunteer Infantry as surgeon, and remained with that regiment, except during a period of sickness, till the capture of Vicksburg, when he resigned and returned home. A month later he joined the 96th Ohio Infantry in the same capacity, and shared the dangers and honors of that body till the return of peace caused its disbanding.

The arduous duties of army life were too much for Dr. Driscoll, and in discharging them he permanently impaired his health. After the close of the war he settled in Oak Harbor, Ottawa county, for about twelve months, after which he went to Neosho Falls, Kansas, where he practiced till the spring of 1873. He then returned to Shelby county and located in Hardin. He stayed there for two years, when he moved again to Pemberton. He recently bought the practice of W. M. Goodlove, of Monticello. Here he was attacked with typhoid pneumonia on the 14th and died on the 21st of this month. He leaves a wife and five sons, the eldest about 15 years old.
